Organto Foods Inc.

Notes to the Condensed Interim Consolidated Financial Statements

For the Six Months Ended June 30, 2022 and 2021

(Unaudited - expressed in Canadian Dollars)

1. Nature of operations and going concern

Organto Foods Inc. ("Organto" or "the Company") is engaged in the sourcing, processing, packaging, distribution and marketing of fresh organic and value-added vegetable and fruit products. The Company employs an asset-light business model to provide year-round supply of a number of organic and specialty fruit and vegetable products sourced from a global supply base and currently marketed to customers primarily in a variety of European countries. The Company's common shares are listed for trading on the TSX Venture Exchange ("TSXV") under the stock symbol "OGO", on the OTCQB under the stock symbol "OGOFF" and on the Frankfurt Stock Exchange under the stock symbol "OGF". The Company's head office and principal address is located at 1090 Hamilton Street, Vancouver, British Columbia, V6B 2R9, Canada.

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. Since then, millions of cases of the disease have been identified around the world, including regions that are important to the Company's business in terms of sales, product supply and other aspects of its supply chain. The Company has continued to operate during the initial outbreak and subsequent waves of the virus. Essential food supply chains have been maintained through these difficult times, although not without their issues due to logistics and labor challenges, and the Company has continued to work with its supply partners and customers to bring product to market. As the coronavirus pandemic plays out around the world, the full impact on the Company's business from this is difficult to predict. An extended pandemic outbreak including additional waves in many countries already impacted, or dramatic increase in actions taken by Governments to control transmission of the virus could cause the Company's key third party suppliers or the Company itself to temporarily close or significantly change operations, which could lead to a shortage of raw materials and finished products. Also, if one or more of the Company's key customers were required to close for an extended period, the Company might not be able to ship products to them, and consumers may alter their level of purchasing activity, which would also adversely impact the Company's net sales.

Economic sanctions implemented in 2022 by the European Union and other countries in response to the Russia/Ukraine conflict have had and many continue to have an economic impact on the Company including lost sales, supply dislocation as product normally destined for Russian markets by international suppliers is diverted to alternate markets and increased supply chain costs driven by rising energy costs and freight availability. While products initially meant for sale in Russia will be available for sale elsewhere during the period that the sanctions remain in place, their sale can not be assured. Any of the foregoing events or other unforeseen consequences could materially adversely affect the Company's business, results of operations, financial condition and/or cash flows.

These condensed interim consolidated financial statements have been prepared on a going concern basis which implies that the Company will continue realizing its assets and discharging its liabilities in the normal course of business for the foreseeable future. Should the going concern assumption not continue to be appropriate, further adjustments to carrying values of assets and liabilities may be required. The operations of the Company have historically been funded by the issue of share capital, bank loans, short-term loans and convertible loans. At June 30, 2022, the Company had working capital of \$5,572,694 (December 31, 2021 - \$9,682,809) and an accumulated deficit of \$39,572,246 (December 31, 2021 - \$34,564,834). Accordingly, the ability of the Company to realize the carrying value of its assets and continue operations as a going concern is dependent upon its ability to obtain additional financing as needed, continued financial support from related parties, and ultimately on generating future profitable operations. The factors described indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. If the going concern assumption was not appropriate for these condensed interim financial statements, adjustments would be necessary in the carrying values of assets, liabilities, reported income and expenses and the statement of financial position classifications used. Such adjustments could be material.

2. Basis of presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim consolidated financial statements have been prepared using the same accounting policies and methods of computation as the most recent annual financial statements for the year ending December 31, 2021.

Organto Foods Inc.

Notes to the Condensed Interim Consolidated Financial Statements

For the Six Months Ended June 30, 2022 and 2021

(Unaudited - expressed in Canadian Dollars)

These condensed interim consolidated financial statements were approved by the Board of Directors and authorized for issue on August 24, 2022.

3. Receivables

	June 30, 2022 (\$)	December 31, 2021 (\$)

VAT recoverable	133,040	153,971
Other	9,183	130,225
	2,571,351	3,161,905

In March 2022 one of the Company's European subsidiaries established a new accounts receivable factoring facility with a European bank to replace its existing facility with a different European bank. The new facility is for €2 million and the Company was required to guarantee the European subsidiary's obligations under the facility.

Finished goods	163,707	316,324
	163,707	316,324

5. Grower advances

Periodic advances are made to third-party growers for various farming needs and are secured with crop harvests, property or other collateral owned by the growers. Grower advances are stated at the gross amount of the advance amount less any allowances for potentially uncollectible balances and are classified based on their expected repayment dates with any advances not expected to be repaid within the next twelve months reported as long-term. Grower advances are reviewed on a regular basis.

	June 30, 2022 (\$)	December 31, 2021 (\$)
Advances expected to be repaid within the next twelve months	2,672,835	2,699,216
Advances with an expected repayment date later than twelve months	462,509	-
	3,135,344	2,699,216

6. Derivative assets

In February 2022 one of the Company's European subsidiaries established a hedging facility with a European financial services company in order to hedge its exposure to fluctuations in the US dollar vs Euro exchange rate. The facility is for forward currency exchange contracts, up to a maximum of US\$4 million. As part of this facility, the Company was required to guarantee the European subsidiary's obligations under the facility.

Organto Foods Inc.

Notes to the Condensed Interim Consolidated Financial Statements

For the Six Months Ended June 30, 2022 and 2021

(Unaudited - expressed in Canadian Dollars)

At June 30, 2022 the forward currency exchange contracts allowed the Company to purchase US dollars for less than by acquiring them on the spot market, and a derivative asset has been recognized. The carrying value of the derivative asset represents the difference between the cost to acquire US dollars on the spot market and through the forward currency exchange contracts. A corresponding amount has been recorded as an unrealized gain on derivative assets and is included in the current period's net loss.

During the six months ended June 30, 2022 the Company's European subsidiary purchased US dollars utilizing its forward currency exchange contracts. The difference between the cost to acquire them through the forward currency exchange contracts and the spot market at the time of purchase has been recorded as a realized gain on derivative assets and is included in the current period's net loss.

7. Investment securities

Upon the sale of its Colombian subsidiary and related intellectual property in June 2019, Organto received common shares of Xebra Brands Ltd. ("Xebra") and a right of first refusal ("ROFR") to distribute Xebra's cannabis products throughout Europe. Xebra is a Canadian cannabis company developing high-margin cannabis-based consumer products, with a major focus on cannabis-infused beverages. Xebra's common shares were listed on the Canadian Securities Exchange in October 2021 under the trading symbol XBRA.

In June 2021 the Company sold its ROFR to Xebra for proceeds of 200,000 common shares of Xebra. No value was ever attributed to the ROFR given the uncertainty of when or if Organto could begin profitably distributing Xebra products in Europe. A value of \$0.17 per share was used for the shares received and \$34,000 was recorded as other income in the second quarter of 2021.

At June 30, 2022 the Company held 3,281,278 common shares of Xebra, of which 2,259,778 are subject to trading restrictions that expire between September 2022 and September 2023. At June 30, 2022 the Company revalued the Xebra shares to a carrying value of \$261,046 represents a discount to their market value of \$295,315 to reflect these trading restrictions and the Company recognized a revaluation loss of \$370,972 and \$790,569 for the three and six month periods ended June 30, 2022. Subsequent to June 30, 2022 the market value of the Xebra shares has fluctuated between \$721,881 and \$180,470.

At December 31, 2021 the Company held 3,281,278 common shares of Xebra, all of which were subject to trading restrictions that expire between March 2022 and September 2023. At December 31, 2021 the Company valued the Xebra shares at a their carrying value of \$1,051,615, a discount to their market value of \$1,246,886 to reflect these trading restrictions. The Company recognized a net revaluation gain of \$587,209 for revaluations done in 2021. Prior to their listing on the Canadian Securities Exchange in October 2021, the fair value of the Xebra shares was estimated using a combination of the price of the most recent funding involving financing from external investors and expected proceeds.

8. Intangible assets

Intangible assets include the trade name and client relationships acquired when the Company purchased 100% of the outstanding shares of both Fresh Organic Choice BV ("Fresh Organic Choice") and Beeorganic B.V. ("Beeorganic") as well as the operating business of Zimbabwe Marketing Services B.V. ("ZMS"). Trade names are being amortized over 5 years and customer and supplier relationships over 10 years. Their amortization is included in selling, general and administrative expenses on the condensed interim consolidated statement of comprehensive loss.

9. CEBA loan

The Company received proceeds of \$40,000 in September 2020 and an additional \$20,000 in December 2020 under the Canada Emergency Business Account ("CEBA") program. The loan is a 0% interest bearing loan with no principal payments required. The loan can be repaid at any time and \$20,000 of the loan will be forgiven if repaid in full before December 31, 2022. If not repaid

Organto Foods Inc.

Notes to the Condensed Interim Consolidated Financial Statements

For the Six Months Ended June 30, 2022 and 2021

(Unaudited - expressed in Canadian Dollars)

by December 31, 2023, the loan can be converted into a 3-year term loan at 5% annual interest paid monthly effective January 1, 2024.

10. Convertible debentures

May 2022 series

In May 2020 the Company completed a private placement of convertible debentures with a total face value of \$720,300. The debentures were unsecured and had a term of two years and bore interest at 10% annually, payable in arrears beginning one year after their date of issuance. The debentures were convertible into shares of Organto at \$0.05 per share in the first 12 months and \$0.10 thereafter. Interest was not convertible. The holder could convert all or part of the debentures at any time and the Company had the right to force conversion of the debentures.

Debentures with a face value of \$665,300 were converted in 2020 resulting in the issuance of 13,306,000 common shares. The remaining debentures with a face value of \$55,000 were converted in January 2021 resulting in the issuance of 1,100,000 common shares.

December 2022 series

In December 2020 the Company completed a private placement of convertible debentures with a total face value of \$3,356,850. The debentures are unsecured and have a term of two years and bear interest at 8% annually, payable in arrears beginning one year after their date of issuance.

The debentures are convertible into shares of Organto at \$0.30 per share and interest is not convertible. The holder may convert all or part of the debentures at any time. If, at any time after April 29, 2021, the closing price of the Company's shares exceeds \$0.45 or more for ten consecutive trading days, the Company has the right to force conversion of the Debentures.

The Company recorded \$3,076,872 as the fair value of the debt component of the debentures, with the residual amount of \$279,978 allocated to the equity component of the debentures. The debt component of the debentures is being accreted to the face value of the loan over the two-year term.

A total of \$191,775 in finder's fees was allocated to the liability and the equity components of the debentures, of which \$126,084 was paid in cash. The finders were also issued 420,280 warrants with each warrant entitling the holder to purchase one common share at a price of \$0.30 for a period of two years. These finder warrants have a total fair value of \$65,691 determined using the Black-Scholes Option Pricing Model.

Debentures with a face value of \$577,000 were converted in 2021 resulting in the issuance of 2,839,995 common shares.

Notes to the Condensed Interim Consolidated Financial Statements

For the Six Months Ended June 30, 2022 and 2021

(Unaudited - expressed in Canadian Dollars)

The Company recorded \$284,144 as the fair value of the debt component of the debentures, with the residual amount of \$7,856 allocated to the equity component of the debentures. The debt component of the debentures is being accreted to the face value of the loan over the two-year term.

A finder's fee of \$18,000 was paid in cash and recorded in 2021. Other transaction costs associated with the January 2023 debentures were recorded in 2020 together with the costs associated with the December 2022 series.

With a maturity date of January 4, 2023, this series of debentures is classified as short-term.

November 2026 series

In November 2021 the Company completed an offering of convertible debentures with a total face value of \$8,050,000. The debentures are unsecured and have a term of five years and bear interest at 8% annually, payable in arrears beginning one year after their date of issuance.

The debentures are convertible into shares of Organto at \$0.50 per share and interest is not convertible. The holder may convert all or part of the debentures at any time after November 30, 2023. If, at any time after November 30, 2023, the 20-day volume weighted average trading price of the Company's shares on the TSXV exceeds \$0.625, the Company has the right to force conversion of the Debentures. The Company may repay all or a portion of the convertible debentures by issuing common shares worth \$1,053 based on their current market price for each \$1,000 face value of convertible debentures. The Company may also pay all or a portion of the interest payable by issuing common shares to the debenture trustee who shall sell the common shares and use the proceeds to pay the interest due to debenture holders.

The Company recorded \$6,278,676 as the fair value of the debt component of the debentures, with the residual amount of \$1,771,324 allocated to the equity component of the debentures. The debt component of the debentures is being accreted to the face value of the loan over the five-year term.

Transaction costs of \$956,627 were paid in cash including \$126,084 in finder's fees. Finder's fees totaled \$483,000 and included 966,000 warrants with each warrant entitling the holder to purchase one common share at a price of \$0.50 for a period of two years. These finder warrants have a total fair value of \$258,888 determined using the Black-Scholes Option Pricing Model. A total of \$1,215,515 in transaction costs was allocated to the liability and the equity components of the debentures.

With a maturity date of November 30, 2026, this series of debentures is classified as long-term.

The Company recognizes stock-based compensation over the vesting period of the underlying options using the Black-Scholes Option Pricing Model for those options with set vesting dates and the Binomial Method for those options which vest based on market conditions. Option pricing methods require the input of highly subjective assumptions including expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options granted and/or vested during the period. The fair value of the options granted in the six months ended June 30, 2022 was calculated using the Black-Scholes Option Pricing Model with the following inputs: expected price volatility of 114-120%, risk free interest rates of 0.33%-1.46%, expected lives of 5 years and no dividend yield.

The fair value of the options granted during the six months ended June 30, 2022 was \$15,900 (2021 - \$267,600) and the Company recognized \$386,343 (2021 - \$358,106) as stock-based compensation expense relating to options that vested.

(d) Restricted share units

In January 2021 the Company adopted a restricted share unit ("RSU") plan to issue RSUs whereby the total aggregate RSUs and share options outstanding may be up to 10% of its issued capital at the time of an applicable option grant. Under the RSU plan, the Company has 2,500,000 RSUs reserved for issuance and the Company's Board of Directors may from time to time, grant RSUs to directors, officers, employees or consultants. The vesting terms of an RSU are at the discretion of the Board of Directors.

No RSUs were granted in the three and six month periods ended June 30, 2022. The Company recorded \$69,969 (2021 - \$247,372) in the six months ended June 30, 2022 as stock-based compensation expense relating to RSUs that vested.

At June 30, 2022 a total of 2,475,000 RSUs were outstanding, of which 881,250 had vested. No vested RSUs were paid in the six months ended June 30, 2022.

(e) Warrants

In May 2020, the Company issued 223,300 warrants in connection with the convertible debentures issued in May 2020. These warrants are exercisable for a period of two years at an exercise price of \$0.10 per share. The fair value of these warrants of \$4,466 was calculated using the Black-Scholes Option Pricing Model with the following inputs: expected price volatility of 122%, risk free interest rate of 0.44%, expected life of 2 years and no dividend yield. The value of these warrants was expensed as a financing cost during 2020. 121,860 warrants were exercised and 78,940 expired in 2022. 22,500 warrants were exercised in 2021.

In December 2020 the Company issued 420,280 warrants in connection with the convertible debentures issued in December 2020 and 192,630 warrants in connection with the 8% credit facility established in December 2020. These warrants are exercisable for a period of two years at an exercise price of \$0.30 per share. 136,040 of these warrants were exercised in 2021. The fair value of these warrants of \$95,800 was calculated using the Black-Scholes Option Pricing Model with the following inputs: expected price volatility of 125%, risk free interest rate of 0.21%, expected life of 2 years and no dividend yield. The value of these warrants was classified as issue costs for the debentures and bank loan and is recorded as offsets to the bank loan and convertible debenture balances to be amortized over their expected two-year term.

In January 2021 the Company issued 62,000 warrants in connection with the convertible debentures issued in January 2021. These warrants are exercisable for a period of two years at an exercise price of \$0.30 per share. The fair value of these warrants of \$8,800 was calculated using the Black-Scholes Option Pricing Model with the following inputs: expected price volatility of 125%, risk free interest rate of 0.21%, expected life of 2 years and no dividend yield. The value of these warrants was included with the issue costs for the debentures issued in December 2020. These costs were recorded in 2020 as an offset to the convertible debenture balances and will be amortized over their expected two-year terms.

In November 2021 the Company issued 966,000 warrants in connection with the convertible debentures issued in November 2021. These warrants are exercisable for a period of two years at an exercise price of \$0.50 per share. The fair value of these warrants of \$258,888 was calculated using the Black-Scholes Option Pricing Model with the following inputs: expected price volatility of 114%, risk free interest rate of 1.36%, expected life of 2 years and no dividend yield. The value of these warrants
